

DNprofil® cable canal WITH INTEGRATED DIN RAIL

- Save up to 60% of space
- Reduces assembly time
- Possible to use in any kind of cabinet
- Excellent heat distribution properties
- Possible to mount components outside the cabinet

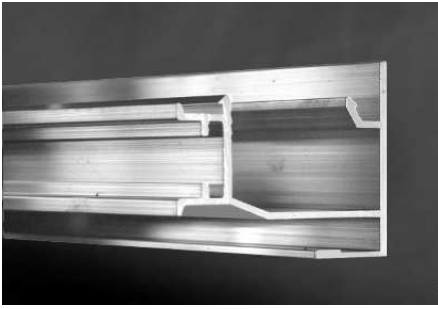

Save space and assembly time with DNprofil®

Our aluminium DNprofil® replaces a DIN-rail according to EN 50 022 (35mm, typ O) and one or two cable canals. The integrated construction saves up to 60% of space compared with a conventional assembly method.

Due to the robust aluminium construction of the profiles the amount of mounting points can be minimized. Normally two mounting points are sufficient and pre-assembly of components outside the cabinet is possible.

The excellent heat distribution properties of DNprofil® aluminium profiles make them especially suitable for use in spaces with a high heat density.

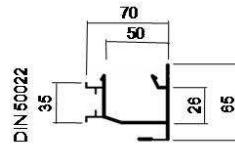

DNprofil® cable canal with integrated DIN-rail

DNprofil®

4006

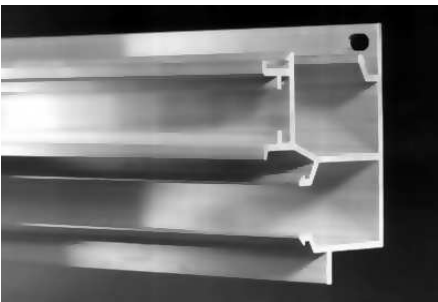

Aluminium DIN-rail (EN50022 – 35mm) with one integrated cable canal.

Art. no.	Description
----------	-------------

4006-0-xxxx*	without mounting holes
4006-1-xxxx*	incl. 2 mounting holes 6,5mm, 10mm from outer ends.
4006-1-0484	for 19" cabinet, with 2 mounting holes
4006-9-xxxx*	special hole pattern

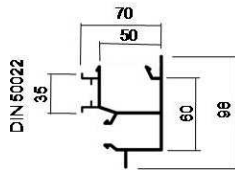

* length inmm, max. length 5000mm

DNprofil®

4007

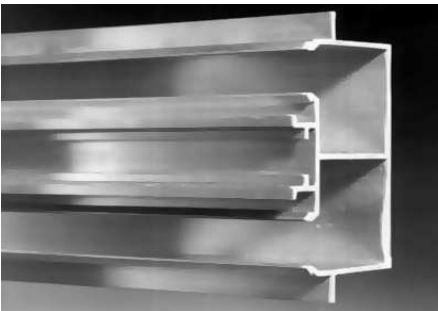

Aluminium DIN-rail (EN50022 – 35mm) with two integrated cable canals.

Art. no.	Description
----------	-------------

4007-0-xxxx*	without mounting holes
4007-1-xxxx*	incl. 2 mounting holes 6,5mm, 10mm from outer ends.
4007-1-0484	for 19" cabinet, with 2 mounting holes
4007-9-xxxx*	special hole pattern

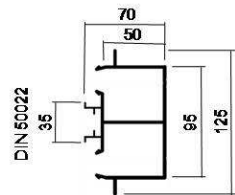

* length inmm, max. length 5000mm

DNprofil®

4008

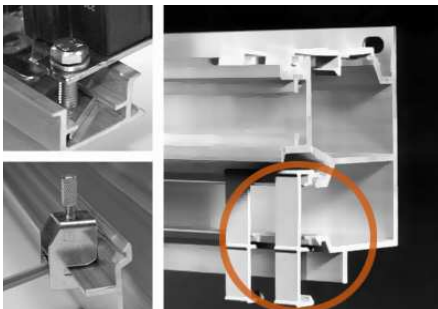

Aluminium DIN-rail (EN50022 – 35mm) with two integrated cable canals.

Art. no.	Description
----------	-------------

4008-0-xxxx*	without mounting holes
4008-1-xxxx*	incl. 4 mounting holes 6,5mm, 7 mm from outer ends.
4008-9-xxxx*	special hole pattern

* length inmm, max. length 5000mm

DNprofil®

Accessories

Art. no.	Description
----------	-------------

4009-100	DNprofil cable clips, package 100 pcs.
4010	earth clmp, max. diameter 13 mm
4011	sliding nut M6, for mounting big components
